

MODERN FOREIGN LANGUAGES

MICHAEL FARADAY CURRICULUM IMPACT 2022/23

IMPACT REFLECTION

Our Spanish curriculum has ensured that our children enjoy learning a second language and understand the value of respecting the differences we have in our school community.

It has had a significant impact on children, providing them with valuable language skills, cultural awareness, and cognitive development.

Key skills are taught well and our children leave Michael Faraday with a sound knowledge and understanding of the Spanish language.

We provide children with lifelong language skills that can benefit them academically, professionally, and personally.

PUPIL VOICE

"I've learnt how to speak and write in full spanish sentences."

Year 4 Pupil

"I've enjoyed learning a new language because you can communicate in a different way."

Year 5 pupil

"I've learnt numbers, colours, fruits, vegetables, body parts; all in spanish!"

Year 3 pupil

"Spanish lessons teach me all about Spanish culture. We learnt all about Spanish food and how to order in a restaurant."

Year 6 pupil

"I've been taught how to speak spanish words so that I can speak Spanish to people"

Year 4 pupil

"It's been really interesting learning how other countries speak. The language sounds different but now I understand what it means."

Year 6 pupil
